EPA Notice ID: 041648/04E/25

Dear Rod F Armbruster:

This letter, including the enclosures, serves as the Acknowledgment of Consent (AOC) for EPA Notice ID 041648/04E/25 for the following waste stream numbers: 001. This AOC letter is valid from July 07, 2025 to June 29, 2026.

Enclosed you will find special instructions for exports under this AOC, as well as a copy of the notice. Also appended are the consented values for your notice.

Sincerely,

Eva Kreisler, Senior Attorney
International Branch
Office of Resource Conservation and Recovery

Enclosures

Special Instructions for Hazardous Waste under 40 CFR Part 262 Subpart H

Please be advised of the following special RCRA requirements for export shipments of hazardous waste, including those hazardous wastes managed under the alternate management standards of 40 Code of Federal Regulations (CFR) Part 266 or 40 CFR Part 273 (or state equivalents). These export requirements are found at Title 40 CFR Part 262, Subpart H - Transboundary Movements of Hazardous Waste for Recovery or Disposal, Section 262.83 – Exports of Hazardous Waste.

1. In accordance with §262.83(b)(3), if you wish to change any of the terms of the original notice, you must renotify EPA. See §262.83(b)(3) for details on what changes require renotification. Renotifications must be submitted electronically using RCRAInfo WIETS. Any shipment using the requested changes cannot take place until the countries of import and transit consent to the renotification and the exporter receives an EPA Acknowledgment of Consent (AOC) letter documenting the countries' consents to the renotification.
2. A U.S. hazardous waste manifest (RCRA manifest) must accompany each shipment of hazardous waste, unless it is otherwise exempted from RCRA manifest requirements (e.g., spent lead acid batteries and universal waste are not federally required to be RCRA manifested) while the shipment is within the United States. For RCRA manifested export shipments, the RCRA manifest for each shipment must identify the shipment as an export, list the exporter's EPA ID number if the exporter is not identified in Item 5 of the manifest for the export shipment, and list the point of departure from the United States. The EPA consent number for each waste in the shipment (see table below for values to use) must be listed on the RCRA manifest, matched to the relevant list number for the hazardous waste from block 9b. If additional space is needed, the exporter should use a Continuation Sheet(s) (EPA Form 8700 22A). Beginning on December 1, 2025, within 30 days of receiving an export manifest from the final domestic transporter to carry the export shipment to or across the U.S. port of exit, the exporter must submit the top copy (Page 1) of the signed and dated manifest (whether electronic or paper) and all continuation sheets (whether electronic or paper) to the EPA e-Manifest system. The exporter must submit the paper manifest and all paper continuation sheets to the EPA e-Manifest system for purposes of data entry and processing by transmitting to the EPA e-Manifest system an image file of Page 1 of the manifest and all continuation sheets, or by transmitting to the EPA e-Manifest system both a data file and the image file corresponding to Page 1 of the manifest and all continuation sheets (§262.83(c)).
3. Prior to each shipment per §262.83(a)(6)(ii), you or your U.S. authorized agent must:
 - i) Submit Electronic Export Information (EEI) for each shipment to the Automated Export System (AES) or its successor system, under the International Trade Data System (ITDS) platform, in accordance with 15 CFR 30.4(b).
 - ii) Include the following items in the EEI for each shipment, along with the other information required under 15 CFR section 30.6 (see pages Q-8 and Q-9 in Appendix Q of the Automated Export System AESTIR at https://www.cbp.gov/sites/default/files/assets/documents/2019-Jan/ACE_Appendix_Q_PGA_10112018.pdf):
 - (1) EPA license code (described as 'EPA License Required Indicator' in Appendix Q);
 - (2) Commodity classification code per 15 CFR 30.6(a)(12);
 - (3) EPA consent number (described as 'EPA consent number' in Appendix Q, see table below for values to use);
 - (4) Country of ultimate destination per 15 CFR 30.6(a)(5);
 - (5) Date of export per 15 CFR 30.6(a)(2);
 - (6) Quantity of waste in shipment and units for reported quantity, if required reporting units established by value for the reported commodity classification number are in units of weight or volume per 15 CFR 30.6(a)(15); **OR**
 - (7) EPA net quantity reported in units of kilograms, if required reporting units established by value for the reported commodity classification number are not in units of weight or volume.

4. You must prepare and ensure that an international movement document accompanies each shipment from the initiation of the shipment until it reaches the foreign receiving facility (§262.83(d)). Per contracts or equivalent arrangements, you must also require that the foreign receiving facility send a copy of the signed international movement document to confirm receipt within three working days of shipment delivery to you, and to the competent authorities of the countries of import and transit. Receipt of this signed international movement document serves as confirmation of receipt of the hazardous waste shipment.

5. Also per contracts or equivalent arrangements, you must require the foreign receiving facility to send a copy of the signed and dated confirmation of recovery or disposal, as soon as possible, but no later than 30 days after completing recovery or disposal on the waste in the shipment and no later than one calendar year following receipt of the waste, to the exporter and to the competent authority of the country of import.
6. In accordance with §262.83(h), you must file an exception report with EPA if any of the following occurs:
 1. You have not received a copy of the RCRA hazardous waste manifest (if shipment required to be RCRA manifested) signed by the transporter identifying the point of departure of the hazardous waste from the United States, within forty-five (45) days from the date it was accepted by the initial transporter, in which case you must file the exception report within the next thirty (30) days;
 2. You have not received a written confirmation of receipt from the foreign receiving facility in accordance with §262.83(d) within ninety (90) days from the date the waste was accepted by the initial transporter, in which case you must file the exception report within the next thirty (30) days; or
 3. The foreign receiving facility notifies you, or the country of import notifies EPA, of the need to return the shipment to the U.S. or arrange alternate management, in which case you must file the exception report within thirty (30) days of notification, or one (1) day prior to the date the return shipment commences, whichever is sooner.
7. You must electronically file an export annual report by March 1 of each year using RCRAInfo WIETS. (§262.83(g)).
8. You must keep records of AOC letters, export annual reports, exception reports, export manifests, confirmations of receipt and confirmations of recycling or disposal for at least three years (§262.83(i)). You may satisfy these recordkeeping requirements by retaining electronically submitted documents in your account on RCRAInfo WIETS, provided that copies are readily available for viewing and production if requested by any EPA or authorized state inspector.

All shipments of hazardous waste must conform to all applicable state and federal hazardous waste regulations and transportation requirements, as well as these specific export requirements.
